## Welcome message

Greetings!

It is with great pleasure that we invite you to attend the forthcoming 7th World Congress of Pediatric Gastroenterology, Hepatology and Nutrition that will take place between December 4th and 7th, in Buenos Aires Argentina. Because we expect the attendance of doctors, dieticians and nurses from different parts of the world, we are preparing a program that will be creative and challenging for all.

The motto we have chosen for this Congress is: "Integrating scientific knowledge for global equity". An ambitious proposition. To reach the level of excellence expected by those who regularly attend the meetings of the respective Societies, we have been working hard on the 17 main topics with the input of the representatives selected by the 6 participating Societies. The spectrum of topics goes from breast-feeding to transition of adolescents to adult health care providers, from basic science to point of care. In the era of artificial intelligence, we still face challenges about environmental health and malnutrition that will be addressed. We have a roster of excellent lecturers and chairs. On Wednesday we will have a Post Graduate course in English and one in Spanish/Portuguese, Hands-on endoscopy and motility, train the trainers on endoscopy. In addition, we have not less than 12 symposia sponsored by industry. The World Congress will give participants a unique opportunity to exchange ideas and expertise in a global framework and at the same time be enriched with an amazing South American experience.

Buenos Aires will receive you with great late spring weather. It is a multi-ethnic, multicultural city, with Spanish colonial and French architecture mix with local designs. The city has numerous museums, parks, and sports. The country has well known sites of natural beauty that will leave a longstanding impression on the visitors. In addition, it will be a great opportunity to taste our great food, watch and try tango dancing and our wines for those who enjoy them.

We hope to be able to welcome you to Buenos Aires next December.

Sincerely,

**Marina Orsi**

# **Technology Services**

## iEvents

### What is it?

- It is an application downloaded directly from the Apple's App store or Google Play allowing the delegate to interact in real time with the organization of the Congress, receiving in digital format all the necessary information which in turn allows the management of one's own agenda.

### How does iEvents work?

- After having received confirmation of registration to the Congress, the user can download the application for smartphones and directly access their information entering the user identification and password provided by the technical secretariat.
- Before the Congress begins the user can update and prepare their own personal agenda with the scientific activities of their choice.

### What if their terminal is not compatible?

- For delegates whose terminal is not compatible with either Apple or Android, a Bluetooth server will be activated at the venue so Congress information can be received. All that is needed is to approach one of the Touch screen totems located in the Technical Secretariat and allow the interaction with their device.
- In case they do not want to use mobile devices, there will be Touch screen totems available for consulting the application situated throughout the venue
- The Sponsor will have its logo placed on every page and section of the app.
