

7th WORLD CONGRESS

WCPGHAN 2024

of PEDIATRIC
GASTROENTEROLOGY,
HEPATOLOGY and NUTRITION

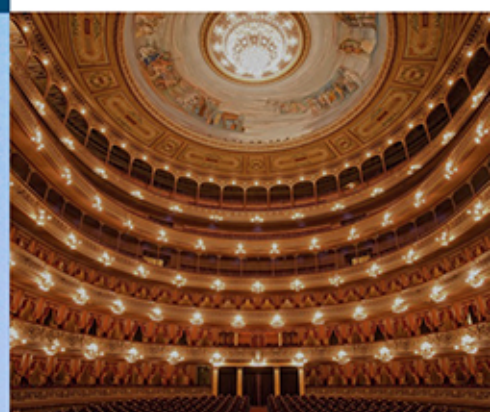

4-7 DECEMBER 2024

FISPGHAN - LASPGHAN

BUENOS AIRES

CONVENTION CENTER (CEC:) ARGENTINA

Wednesday 4th december

10.00 - 10.30 h. Coffee break.

14.00 - 15.00 h. Free time for lunch.

19.00 - 20.00 h. Welcome Reception.

Thursday 5th december

9.30 - 10.00 h. Plenary Session. Artificial Intelligence in science and medicine from AI Khwarizmi to Omics. A real-time future

Room A

Marcelo R Risk

10.00 - 10.45 h. Coffee break & e-poster session.

10.45 - 12.15 h. Session. Celiac disease and gluten related disorders

Room A

**Carlo Catassi
Nelson Ramirez-Rodriguez**

Something new in celiac disease follow-up?

Jernej Dolinsek

Are we overdiagnosing gluten related disorders?

Alessio Fasano

In GRD, are we talking about a transitory pathology or a lasting disorder?

Aw Marion

10.45 - 12.15 h. Session. Enviroment and Global Child Health

Room B

**Paul Harris
Harland Winter**

Climate, Enviromental contamination and global child health equity.

Mark Manary

Innovations in Pediatric Global Health: the role of machine learning and AI in global child health

Sana Syed

Global challenges in childhood nutrition; from undernutrition to obesity

Mary Fewtrell

10.45 - 12.15 h. Session. JPGN

Room C1

**Sandeep Gupta
Giuseppe Indolfi**

Moderated Question and Answer session with Editorial teams of JPGN and JPGN

Reports.

Joseph Croffie

How to transform abstracts into publishable JPGN/JPGN Reports articles

Kathleen Schwarz

Osvaldo Borrelli

Nitika Gupta

10.45 - 12.15 h. Session. Chronic liver disease: causes and complications

Room C2

Ulrich Baumann

Marcela Godoy

Management of small babies with liver disease: how to grow them pre-transplant

Vicky Lee Ng

Autoimmune hepatitis interplay with sclerosing cholangitis in IBD. Evaluation and prognosis

Lorenzo D'Antiga

Portal hypertension in children: challenges and persistent dilemmas

Riccardo Superina

10.45 - 12.15 h. Session. Cystic Fibrosis

Room C3

Magali Reyes Apodaca

The Impact of CFTR Modulators on gastrointestinal symptomatology

Meghana Sathe

Redefining liver disease in CF: new guidelines and definitions

Simon Ling

The pancreas and liver in cystic fibrosis-related disorders

Michael Wilschanski

10.45 - 12.15 h. Session. Nutrition in children: a global perspective

Room D

Sanja Kolaček

Catalina Bages

Practical interventions for managing malnutrition in children under 5 years of age in low- and middle-income countries

Solange Heller Rouassant

Micronutrient supplementation and fortification in children under 5 years

Krishnapriya M Prathapan

Feeding the premature infant: Individualized feeding plans and complementary feeding

Ariel Salas

10.45 - 12.15 h. Session. Current endoscopy training programs: are we meeting the needs of the new generation of endoscopists?

Room E

Lissy de Ridder

Dianora Coromoto Navarro

Current situation of endoscopy training in the Asian-Pacific region

Katsuhiko Arai

Simulators and other trends in endoscopy training

Jennifer Lightdale

New colonoscopy quality indicators

Reinaldo Pierre-Alvarez

12.30 - 13.30 h. Industry Symposium. Plant-Based Approaches for Nutrition Management of CMA: Exploring Hydrolyzed Rice Formula

Room A

Oscar Javier Quintero Hernández

Rosan Meyer

Christophe Dupont

12.30 - 13.30 h. Industry Symposium. Understanding Functional Abdominal Pain Disorders Among Children: A Collaborative Expert Panel.

Room C1

Yvan Vandenplas

Rodrigo Vazquez Frías

Mario Vieira

12.30 - 13.30 h. Industry Symposium. A new perspective about cholestatic diseases in childhood

Room C2

When to suspect genetic cholestatic disease in childhood?

Jorge Abdon Bezerra

A new standard of care for patients with PFIC & ALGS

Ulrich Baumann

Improving outcomes in the real world across PFIC types & ALGS

Lorenzo D'Antiga

12.30 - 13.30 h. Industry Symposium. Challenges in Diagnosis and New Treatments for ALGS and PFIC in LATAM

Room C3

12.30 - 12.45 h. ALGS and PFIC: Experience in Diagnosis and Treatment at the Hospital Italiano of Buenos Aires

Dr. Gustavo Boldrini
Argentina

12.45 - 13.00 h. Barriers in the Diagnosis and Treatment of ALGS and PFIC: Colombian Perspective and Experience

Felipe Ordoñez Guerrero

13.00 - 13.15 h. Advancements and Strengths in the Diagnosis of ALGS and PFIC in Brazil: Success Stories

Gilda Porta

13.15 - 13.30 h. New Molecules for the Treatment of ALGS and PFIC: Experiences with IBATs at Valld'Hebron Hospital

Jesús Quintero Bernabeu

12.30 - 13.30 h. Industry Symposium. Microbiome and non-communicable diseases: A lifelong journey

Room D

Alessio Fasano

12.30 - 13.30 h. Industry Symposium. Advances in Dietary Therapy for Crohn's Disease

Room E

Barriers and Challenges in Cross-Cultural Dietary Adaptation: Insights on Regional Clinical Practice

Soledad Arcucci

New Scenarios in Dietary Management and Combined Therapy with Advance Drugs

Francisco Javier Martin de Carpi

Expanding Indications for Nutritional Therapy in Pediatric Crohn Disease: beyond Induction of Remission in Mild-Moderate Disease

Eytan Wine

13.30 - 14.30 h. Free time for lunch.

14.30 - 16.00 h. Session. Modulating the microbiota

Room A

Stefano Guandalini

Gabriel Vinderola

Restoring premature microbiome maturation through probiotics and nutrition strategies

Marie Claire Arrieta

The fiability of HMO in different situations

Yvan Vandenplas

The use of gum arabic as natural prebiotic in the management of acute diarrhea

Omayma Sabir

Evidence-based indications for probiotics

Hania Szajewska

14.30 - 16.00 h. Session. New challenges in the diagnosis and management of food allergy

Room B

Cristina Targa Ferreira

Induction of cow milk protein tolerance in cow milk allergy: where are we?

Roberto Berni Canani

Impact of food allergy on quality of life and financial burden: a worldwide perspective

Dominique Bailey

The role of STAT-6 in eosinophilic gastrointestinal disorder and other allergic diseases

Ichro Takeuchi

14.30 - 16.00 h. Session. Young Career & Training Program

Room C1

**Anupam Sibal
Sanja Kolaček**

NASPGHAN Experience with Entrustable Professional Activities (EPA)

Cary Sauer

Developing research in resource-limited areas: a tool for global equity

Robert Bandsma

Insights into successful mentor-mentee relationship

Taoufik Meskini

Building global networks: Latinamerica's vision for worldwide gastroenterology education

María Alejandra Mortarini

Training systems across different countries and inequities

Anne Marie Grima

14.30 - 16.00 h. Session. Hepatology

Room C2

**Giuseppe Indolfi
Irene Kazue Miura**

World Health Organization's goal of elimination of viral hepatitis by 2030. don't forget the children

Kathleen Schwarz

Severe Acute Hepatitis: an update

Fernando Álvarez

Metabolic dysfunction-associated steatotic liver disease (MASLD): new approaches to understanding the disease in children and its management

Ulrich Baumann

14.30 - 16.00 h. Session. Nutrition Potpurri

Room C3

Carlos Lifschitz

Suporn Treepongkaruna

Sarcopenia evaluation in chronic diseases: clinical challenges and future directions

Magali Reyes Apodaca

Iron supplementation in infants: To Do or Not To Do?

Natascha Silva Sandy

Early nutrition and longterm health

Rosan Meyer

14.30 - 16.00 h. Session. Changes in the epidemiology of IBD in countries with low prevalence and how to adapt treatments

Room D

Anne Griffiths
Colette Deslandres

Diagnostic challenges in low and middle income areas

Almuthe Christina Hauer

How to define the predictive factors of response? How to select the 1st biological?

Jorge Amil Dias

How dietary therapies can be made region-specific and adapted to foods available in diverse geographies

Richard Russell

New target drugs: will they become an affordable option for low-income regions?

Rohan Malik

14.30 - 16.00 h. Session. Neuromotility/Disorders of Gut-Brain Interaction DGBIs

Room E

Erick Manuel Toro Manjaraz

Annamaria Staiano
Italy

Pelvic floor therapy: new therapeutic/preventive

Miguel Angel Carro

Gastroparesis versus functional dyspepsia

Osvaldo Borelli

Postural tachycardia syndrome

Gisela Chelimsky

DGBIs from childhood to adulthood: the transition

Miguel Saps

16.00 - 16.30 h. Coffee break.

16.30 - 18.30 h. Session. Rome IV-V Criteria and the Disorders of Gut-Brain Interaction DGBIs

Room A

Suporn Treepongkaruna
Carlos Velasco Benitez

Where will the Rome V Criteria go?

Samuel Nurko

What to do with functional nausea?

Marc Benninga

Should biliary disorders be considered in pediatrics within the DGBIs?

Nikhil Thapar

EndoFLIP (Endoluminal functional lumen imaging probe) in pediatrics

José Garza

16.30 - 18.30 h. Session. Breastfeeding and complementary food

Room B

Carlos Lifschitz

Marina Orsi
Argentina

Global challenges on breastfeeding promotion

Erika Ochoa Ortiz

Recent WHO complementary feeding guidelines: pros and cons

Mary Fewtrell

If mom cannot breastfeed?

Benjamin D. Gold

Can we move forward to global recommendations with complementary food introduction?

Neelam Mohan

Textures matters: key insights in complementary feeding

Liliana Ladino Melendez

16.30 - 18.30 h. Session. Pancreatology

Room C1

Carmen Alicia Sanchez Ramirez
Yunuen Rivera-Suazo

Acute pancreatitis: An update with severity predictors

Miguel S. Gallardo Luna

Genetic studies in pancreatitis. Where are we?

Michael Wilschanski

Therapeutic strategy in the management of acute and recurrent pancreatitis

Matías Epifanio

Endoscopic approach in chronic pancreatitis

Simona Faraci

16.30 - 18.30 h. Session. Transition to adult care

Room C2

Karina Leta

Raquel Furnes

Transition in adolescence, adherence, healthcare providers. Our experience

Amanda Cantor

Families also make the transition, different perspectives and challenges

Norman Junge

Transitional care for patients with Inflammatory bowel disease: the japanese experience

Hideki Kumagai

The adult perspective

Edgardo Smecuol

16.30 - 18.30 h. Session. Celiac disease

Room C3

Ritu Verma

Enriqueta Roman Riechmann

Artificial intelligence and machine learning algorithms in the endoscopic and histopathological diagnosis and follow up of CD patients

María Teresa García de Dávila

Can we move towards a global diagnostic process?

Jernej Dolinsek

What about other autoimmunity pathologies in celiac disease?

Sandhia Naik

Screening for celiac disease in the general pediatric population: has the time come?

Carlo Catassi

16.30 - 18.30 h. Session. Cholestatic liver disease

Room D

Mirta Ciocca

Fernando Álvarez

Transforming Care in Biliary Atresia: From Pathogenesis to the Bedside

Jorge Abdon Bezerra

Biliary atresia in adolescence and adulthood: challenges on the road to transition

Kathleen Schwarz

Genetic liver disease: Is there a new diagnostic algorithm? Is it applicable worldwide?

Richard Thompson

Novel pharmacological therapies for neonatal cholestasis. Pros and Cons.

Huey-Ling Chen

16.30 - 18.30 h. Session. Introduction to Microbiome and its impact in life

Room E

Omayma Sabir

Stacy Kahn

Introduction to Microbiome for the pediatric gastroenterologist

Christian Germán Boggio Marzet

Metagenome sequencing of the gut microbiome in populations all over the world

Ruarri Robertson

Impact of the maternal microbiome on the developing infant across the perinatal period

Flavia Indrio

Opportunities for interventions (trials)

Paul Kelly

Friday 6th december

8.15 - 9.15 h. Industry Symposium. New Insights on Infant Colic: From Pathophysiology to Comparative Probiotic Studies

Room C1

Rodrigo Vazquez Frías

Jordi Espadaler Mazo

8.15 - 9.15 h. Industry Symposium. Brain-gut axis interaction disorders: how functional is it and what do we still need to discover? (Symposium in Spanish)

Room D

Carlos Lifschitz

Elaine Mosquera

Flavia Indrio

8.15 - 9.15 h. Industry Symposium. Pediatric DGBI & Nutrition Insights: from diagnosis to optimized care.

Room E

John Status

Jorge Arturo Chávez Sainz

9.30 - 10.00 h. Plenary Session. Climate change, malnutrition and poverty: there are not technological fixes

Room A

Roberto Fernández

10.00 - 10.45 h. Coffee break & e-poster session.

10.45 - 12.15 h. Session. Obesity in children and adolescents

Room A

Vicky Lee Ng

Laura Delgado

Childhood obesity: Epidemiology, etiology, and pathogenesis

Jiri Bronsky

Molecular genetic of childhood obesity

Magali Reyes-Apodaca

Dietary interventions to prevent childhood obesity

Patricio Acosta Rodríguez Bueno

Advances in treatment of pediatric obesity

Irina Kovalskys

10.45 - 12.15 h. Session. Update of the atopic march

Room B

Koen Huysentruyt

Milton Mejía Castro

Strategies to prevent cow's milk allergy: are we doing our best?

Roberto Berni Canani

Advances in the treatment of IgE-mediated food allergies

Anna Nowak Wegrzyn

New allergens in the horizon?

Sylvia Cruchet

Food allergy exclusion diet: growth and QOL-HR challenges

Katia Rodriguez

10.45 - 12.15 h. Session. Research & Future directions

Room C1

Mauro Batista de Morais

Melvin Heyman

Advances in pediatric acute liver failure (PALF)

Rohit Kohli

Relationship between gut, liver, microbiome and nutrition

Yen Hsuan Ni

Optimal treatment of pediatric IBD: closing the gap through investigator initiated clinical research

Lissy de Ridder

10.45 - 12.15 h. Session. Transplantation

Room C2

Natascha Silva Sandy
Kyung Mo Kim

Cardiovascular manifestation following liver transplantation: an update

Norman Junge

Recurrent sclerosing colangitis after liver transplantation: new concepts

Mercedes Martinez

Optimizing use of technical variant liver allografts

George Mazariegos

10.45 - 12.15 h. Session. Therapeutic Endoscopy in Children: we´ve come a long way ...

Room C3

Katsuhiro Arai
Sandra Neri

Advanced polypectomy with EMR/ESD

Mike Thomson

Endoscopic management of GI fistulae and perforations in children

Paula Peruzzi

Endoscopic biliopancreatic interventions in children

Zaheer Nabi

10.45 - 12.15 h. Session. Celiac & GRD

Room D

Sandhia Naik
Omar Sadaah

From pathogenesis to novel therapies

Valentina Discepolo

Tolerance, probiotics, and peptidases

Julio César Bai

Is personalized medicine possible in celiac disease (predictors or interventions to prevent disease)?

Luciana Guzmán

Controversies in Celiac Disease and Gluten-related disorders

Stefano Guandalini

10.45 - 12.15 h. Session. IBD - future challenges

Room E

Jorge Arturo Chávez Sainz

Harland Winter

Monogenic disease VEOIBD from the GI clinic

Aleixo Muise

Do we have to consider a different diagnostic algorithm in VEOIBD?

Mamoun Elawad

Therapeutic approach in patients with VEOIBD

Victor Navas Lopez

Potential positioning of fecal microbiota transplantation (FMT) and microbial therapeutics into the treatment of IBD

Richard Kellermayer

12.30 - 13.30 h. Industry Symposium. Shaping Immune Health: unlocking the benefits of Early Microbiome Programming

Room A

Oscar Hincapie

Ruarri Robertson

John Stutts

12.30 - 13.30 h. Industry Symposium. Groundbreaking Probiotic Guidelines for Latin America & *Saccharomyces boulardii* CNCM I-745 as the Preferred Choice

Room C1

Ailim Margarita Carias Domínguez

2024 Iberoamerican Guidelines on Probiotics for Digestive Health in Children: Evidence based analysis and expertise approach

Sylvia Cruchet

Pedro Gutiérrez Castrillón

Guidelines to Reality: Bringing Expert Insights into Clinical Practice Using *Saccharomyces boulardii* CNCM I-745.

Aldo Maruy Saito

12.30 - 13.30 h. Industry Symposium. Advances in Pediatric Intestinal Failure

Room C2

**George Mazariegos
Adriana Fernández**

Veronica Busoni

12.30 - 13.30 h. Industry Symposium. Navigating the Cow's Milk Allergy Journey: From Diagnosis to Nutritional Optimization

Room C3

Welcome and Introduction to the Symposium

José Vicente Spolidoro

The Cow's Milk Related Symptom Score (CoMiSS™)

Yvan Vandenplas

Unleashing the Power of the Microbiome in the Management of CMPA

Anna Nowak-Wegrzyn

12.30 - 13.30 h. Industry Symposium. Treatment of CMPA: real-world evidence. (Symposium in Spanish).

Room D

Gabriel Vinderola

Real world evidence studies

Norberto Giglio

Effectiveness of an hydrolyzed formula with symbiotics

Monica Edith Del Compare

12.30 - 13.30 h. Industry Symposium. Synbiotics: Unlocking the Synergies of HMOs and Probiotics for Infant Health and Development

Room E

Lars Bode

Maria Fernanda Elias Llanos

13.30 - 14.30 h. Free time for lunch.

14.30 - 16.00 h. Session. Gut Brain Disorders

Room A

Samuel Nurko

Melquicedec Vargas Sandoval

Nutritional approach in DGBI disorders

Annamaria Staiano
Italy

The unavoidable pandemic of DGBI

Carlo Di Lorenzo

Neurostimulation in pediatric DGBI

Neha Santucci

Diagnosis and treatment of oropharyngeal dysphagia

Rachel Rosen

14.30 - 16.00 h. Session. News in celiac disease

Room B

Aw Marion
Yalda Lucero

Are there new tools to assess adherence to the gluten-free diet?

Carmen Ribes-Koninckx

New diagnostic challenges in GFD-style era

Ritu Verma

Tools to test new therapeutics: from the periphery to the gut

Valentina Discepolo

14.30 - 16.00 h. Session. Research & future directions

Room C1

Eduardo Hebel Weiss
Henkjan J. Verkade

Bridging the disparities in research between low- and high-income countries

Anupam Sibal

Leveraging multi-center collaborative to advance hepatology research

Jorge Abdon Bezerra

Immunity and microbiota: key regulators of the gut-brain axis

Fernando Chirido

14.30 - 16.00 h. Session. Helicobacter pylori

Room C2

Said Ettair

Armando Madrazo de la Garza

H. pylori the bad guy: associated diseases in children

Benjamin D. Gold

H. pylori the good guy: benefits of infection in modulating allergic and immune-mediated diseases

Paul Harris

H. pylori: are the NASPGHAN/ESPGHAN Guidelines 2023 applicable around the world?

Matjaz Homan

14.30 - 16.00 h. Session. New endoscopic techniques and devices for old problems

Room C3

Priya Narula

Gabriela Hernández Vez

New techniques and devices for non-variceal GI Bleeding

Petar Mamula

Endoscopic therapy for obesity (balloons and others)

Potential of balloon-assisted enteroscopy: what can we do with it?

Tomonori Yano

14.30 - 16.00 h. Session. Feeding disorders

Room D

Jiri Bronsky

Juan Sebastián Pereira Angulo

General approach to feeding disorders

Mauro Fisberg

Feeding in neurologically impaired children

Mohamed Miqdady

Management of picky eaters

Feeding problems and nutrient intake in children with autism spectrum disorders

Ailim Margarita Carias Domínguez

14.30 - 16.00 h. Session. Tailored Therapies in Microbiota & Personalized Medicine

Room E

Paul Kelly
Aldo Maruy Saito

Diet-microbiota interaction: towards a personalized medicine

Rosaura Leis Trabazo

Cell viability: don't give up! In the era of postbiotics

Juan Bustamante

The future of gastrointestinal health: predicting and preventing disease with microbiotic profiling

Stacy Kahn

16.00 - 16.30 h. Coffee break.

16.30 - 18.30 h. Session. Therapeutic challenges in IBD, a look into the future.

Room A

Monica Contreras
Mamoun Elawad

Should we tailor small molecule vs. biologic therapeutic options in low- and middle-income areas?

Lee Way Seah

Thinking about nutrient deficiency

Vera Sdepanian

What to do when we lose response to biologic? How to prevent and/or reverse the loss of response to biologics?

Francisco Javier Martin de Carpi

Decisions to make before and after luminal surgery

Anne Griffiths

16.30 - 18.30 h. Session. MASLD: more than words

Room B

Rohit Kohli

Miriam L Cuarterolo

EASL Clinical Practice Guidelines on genetic cholestatic liver disease

Henkjan J. Verkade

Food insecurity and risk for pediatric fatty liver

Rima Fawaz

Do family, culture, genetics and environment determine fatty liver?

Neelam Mohan

Indications for liver transplantation in metabolic disease: what are the results?

George Mazariegos

16.30 - 18.30 h. Session. Environment, Antibiotics and Pathogens.

Room C1

Kerri Gosselin

José Fernando Vera Chamorro

Environmental Enteric Dysfunction, what are the roles of pathobionts in the pathogenesis?

Paul Kelly

Emerging and old pathogens with digestive implications (TBC, chikungunya, etc)

Anupam Sibal

Antibiotic resistance and its relevance for GI infections including C difficile burden

Andrea Lo Vecchio

Epidemiological transitions of mankind and their effect on infectious diseases

Adrian Diaz

16.30 - 18.30 h. Session. Nutritional management of intestinal failure and rehabilitation

Room C2

José Vicente Spolidoro

Jon Vanderhoof

Short bowel syndrome and intestinal adaptation

Valeria Cohran

Teduglutide use in children as a treatment for short bowel syndrome

Veronica Busoni

Long term follow up of short bowel syndrome

Olivier Goulet

Intestinal transplantation

Pablo Lobos

16.30 - 18.30 h. Session. The New Era of Pediatric Diagnostic Endoscopy

Room C3

Reinaldo Pierre-Alvarez

Jennifer Lightdale

A review of the New Era of Capsule Endoscopy

Ignacio Fernández Urien

Role of Pediatric Endosonography in today's era

Moinak Sen Sarma

Endoscopic follow-up of patients with EoE: new guidelines and long-term alternatives

Montserrat Cázares Méndez

AI (Artificial Intelligence) in the Pediatric Endoscopy Room

Victor Fox

16.30 - 18.30 h. Session. Eosinophilic gastrointestinal diseases: What does the evidence tell us?

Room D

Dominique Bailey

Ericka Montijo Barrios

Update on the epidemiology of Eosinophilic Esophagitis: What factors of change should we consider?

Michelle Higuera

Current diagnostic approach of Eosinophilic Esophagitis

Mario Vieira

Gastrointestinal eosinophilic disease: beyond esophagitis

Mohamed Miqdady

Are ESPGHAN/NASPGHAN Guidelines on Eosinophilic Gastrointestinal Disorders Beyond the Esophagus applicable around the world?

Alexandra Papadopoulou

Therapeutic developments in eosinophilic esophagitis and their effectiveness

Jorge Amil Dias

16.30 - 18.30 h. Session. Transplantation

Room E

**Gilda Porta
Norman Junge**

Optimizing Peritransplant Care to Improve Outcomes as a Pediatrician

Kyung Mo Kim

Should living donor be almost always the first graft option in pediatric liver transplants?

Joao Seda

Care of the long-term survivor of pediatric liver transplantation in 2024; definitely not just about the liver

Vicky Lee Ng

LDLT in the setting of acute on chronic liver failure

Ruben Quiros- Tejeira

18.45 - 19.45 h. Industry Symposium. Artificial Intelligence in Healthcare: Leading the Digital Health Transformation

Room D

Health care professionals and AI: Adapt or Be Left Behind

Hania Szajewska

Innovative Approaches in Pediatric Gastroenterology: Machine Learning for Stool Consistency Assessment

Yvan Vandenplas

The future is here: enhancing pediatric care with Artificial Intelligence

Gabriel Vinderola

Saturday 7th december

9.30 - 10.00 h. Plenary Session. Celiac disease, Impact of insights and discoveries so far

Room A

Fernando Chirido

10.00 - 10.45 h. Coffee break & e-poster session.

10.45 - 12.15 h. Session. Gut Microbiota

Room A

Jorge Palacios Rosales

Hania Szajewska

Latest advances in the infant microbiome: the mycobiome in early-life immune and metabolic development

Marie Claire Arrieta

Give the bugs or feed the bugs?

Juan José Díaz Martín

SIBO

José Garza

10.45 - 12.15 h. Session. Children's diets in the present world

Room B

Sylvia Cruchet

Kyung Mo Kim

Nutritional requirements for a healthy diet

Irina Kovalskys

Sugar in infants, children and adolescents

Jiri Bronsky

Feasibility of plant based diets for children

Erika Ochoa Ortiz

No Gluten, No Milk or FODMAPS diets

Katia Rodriguez

10.45 - 12.15 h. Session. Polyposis

Room C1

Thomas Attard
Isabel Rojas

Pediatric polyposis syndromes: an easy guide

Shlomi Cohen

Extracolonic cancer surveillance in pediatric polyposis: guidelines and beyond

Thomas Attard

Familial adenomatous polyposis: keeping the colon

Nakayama Yoshiko

Psychosocial challenges and transition of care in children with polyposis

Michele Maddux

Polypectomy: advanced techniques

Mike Thomson

10.45 - 12.15 h. Session. Videoendoscopy Competition

Room C2

Mario Vieira

10.45 - 12.15 h. Session. Potpurri Highlights

Room C3

Mercedes Martinez
Alejandro Costaguta

Recurrent acute liver failure: diagnosis and management

Gilda Porta

Gene therapy: an update

Lorenzo D'Antiga

Congenital porto-systemic shunts: imaging tests and guidelines

Riccardo Superina

Novel concepts in porto-sinusoidal disorder in children

José Ernesto Lipsich

10.45 - 12.15 h. Session. IBD news.... concepts to working on

Room D

Monica Contreras
Lissy de Ridder

IUS-IBD, What can you tell us? Will it be part of every medical visit?

Michael Winter

When a child is ready to become an adult: transition of care in IBD

Eytan Wine

The Pan American Crohn's and Colitis Organization (PANCCO) Experience

Juan Andrés De Paula

Fertility and breastfeeding still in the biologic era

Rachel Winter

**10.45 - 12.15 h. Session. Neuromotility/Disorders of Gut-Brain Interaction
DGBIs**

Room E

Lucia Escobedo Berumen

Roman Bigliardi

Refractory constipation: medical and surgical treatment

Leonel Rodríguez

Psychotherapy, hypnotherapy, food and drugs in DGBIs

Andrés Bodas Pinedo

Central neuromodulators in the treatment of DGBIs

Desalegn Yacob

Autism spectrum disorder and gastrointestinal (GI) symptoms

Joseph Croffie

14.00 - 15.00 h. Tango.
